## **DETAILED ACTION**

Page 2

## Response to Amendment

1. Applicant's amendment and accompanying remarks filed 6/29/06 have been fully considered and entered. Claims 1,4,6 and 11 have been amended, claims 2-3 have been canceled and new claim 23 has been added. Applicant's cancellation of claim 2 renders moot the prior art rejection set forth in section 3 of the last Office Action. Applicant's amendment to claim 1 is found sufficient to overcome the rejection of claims 1,6, 13 and 16-21 rejected under 35 U.S.C. 102(b) as being anticipated by Volland et al., US 4,618,532, claims 11,12,14 and 15 rejected under 35 U.S.C. 103(a) as being unpatentable over Volland et al., US 4,618,532 as applied to claim 1 and further in view of O'Brien et al., WO 01/26932 A1, claims 7-9 rejected under 35 U.S.C. 103(a) as being unpatentable over Volland et al., US 4,618,532 as applied to claim 1 and further in view of Pelzer et al., US 6,010,870, and claims 4-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Volland et al., US 4,618,532 as applied to claim 1 and further in view of Marcovecchio, US 2002/0176980 A1 as set forth in sections 3-9 of the last Office Action. Specifically, Applicant incorporated the subject matter of claim 3, which was previously indicated as allowable in section 10 of the last Office Action. As such, these rejections are hereby withdrawn.

With specific regard to claim 22, it appears the Examiner erred in the last Office Action and failed to indicate claim 22 as also allowable. As such, Applicant is correct to assume that claim 22 does not stand rejected under any prior art in the last Office Action. Accordingly claims 1 and 4-23 are found allowable for reasons set forth herein below.

Application/Control Number: 10/643,781 Page 3

Art Unit: 1771

## Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: Claims 1 and 4-23

With regard to claim 1, the prior art made of record fails to teach or fairly suggest the interior lining set forth. Specifically, the prior art fails to teach the limitation of providing a soft intermediate layer of cellular material disposed between the decorative layer and the barrier layer.

With regard to claim 22, the prior art made of record fails to teach or fairly suggest the interior lining set forth. Specifically, the prior art fails to teach the limitation of at least one spacer having an open cellular structure attached to the foam backing during the back foaming process.

An updated art search did not produce any substantial new art for which to base a rejection and presently no motivation exists to combine references to form an obviousness type rejection.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Lynda M. Salvatore whose telephone number is 571-272-1482.

The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Terrel Morris can be reached on 571-272-1478. The fax phone number for the

organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR

system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would

like assistance from a USPTO Customer Service Representative or access to the automated

information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
